## Defending RD&I Budget as Key for EU Industrial Competitiveness

The latest news on possible agreement on the next Multiannual Financial Framework (MFF), covering the period 2021-2027, are not very encouraging in terms of timing. The decision by the Council is not expected before the end of 2019 at the earliest. EARTO will keep monitoring developments and asks its members to keep pushing for a €120bn budget for Horizon Europe, in alignment with the European Parliament's position. Within this HEU budget, we strongly support a 60% allocation to Pillar II of HEU.

## Trilogue on HEU Regulation & HEU Specific Programme: compromise reached!

Most of EARTO proposed text changes on HEU Regulation and Specific Programme have been integrated either by EP, Council or both. Trilogue between Institutions started on 9 January 2019. Since then, meetings have been organised each week. EARTO has been constantly monitoring the key aspects of negotiations...

## **HEU Implementation: towards HEU new Model Grant Agreement**

EARTO actively participated in the European Commission's Stakeholders' Workshop: "Shaping how Horizon Europe is implemented" on 30 January 2019. Following the workshop, the EC has now a set timeline for the HEU Model Grant Agreement (MGA) that will define how the HEU rules for participation will be implemented...

## **HEU Strategic Planning - Missions, Partnerships & Shadow Programme Committees**

Beside the preparation of the MGA, the next step to prepare for the implementation of the programme is the development of the HEU Strategic Planning, which is now also starting at EC side. The Strategic Planning is of interest as it will further define the contents of HEU (see draft timeline), and especially with regards to Missions, Partnerships and the role of stakeholders...

# Revision of EU Directive on the Re-Use of Public Sector Information (PSI) adopted

The final text of the <u>PSI directive</u> has been agreed on by the 3 EU Institutions early February 2019. EARTO has published many papers on this topic in 2018, including a <u>Joint Declaration</u> with key EU stakeholders. Such intensive work has since then paid off and EARTO efforts can be considered successful. After formal vote in the EP and approval by the Council, the Directive will need to be applied by Member States...

### **Digital Europe Programme adopted**

In the context of the current discussion on future EU policy on (digital) innovation hubs and tests beds led by DG CONNECT & DG RTD in the current H2020 work programmes, EARTO followed closely the trilogue discussions for the new Digital Europe Programme (DEP), which have now been quite successfully finalised (see <a href="final text">final text</a>). During the very fast negotiation process, the main point of discussion was linked to Innovation Hubs (Recital 11 and Article 16), with issues on: definition, list of hubs, criteria and designation/selection process for Hubs and role of Member States, potential duplication with HEU.

Starting the 1st of January 2019, Romania holds the EU Council Presidency for the first half of 2019, following Austria...
